Training is free of charge!
Win one of several door prizes!

This is an all-inclusive course that provides training on all service aspects of the StageMaker electric chain hoist. We will focus on the service, maintenance, and inspection plans for all technicians. Topics will include recommended maintenance and inspection routines; brake & clutch adjustments; basic electrical overview; and troubleshooting tips and service resources. Participants will be involved in hands-on training and exercises via working hoists and multiple parts available at the training.

- An introduction to the state-of-the-art design features and benefits
- Explanation of basic configurations and range of offering
- Introduction and use of technical guide
- Introduction and review of clearance drawings for standard products
- Key components of routine inspections and recommended schedule
- Replacement process for key components
- Start-up and testing for new installations
- Sources for general & maintenance support documents (www.stagemaker.com)
